DETAILED ACTION

Claim Objections

A series of singular dependent claims is permissible in which a dependent claim refers to a preceding claim which, in turn, refers to another preceding claim.

A claim which depends from a dependent claim should not be separated by any claim which does not also depend from said dependent claim. It should be kept in mind that a dependent claim may refer to any *preceding* independent claim.

Claims 5-6 are objected to because claim 5 depends from a nonexistent claim 41, and not from any preceding independent claim. Appropriate correction is required. See MPEP § 608.01(n).

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 5-16 and 18-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. For example, there is no support in the original specification for the following amended claim language: "first" (claim 1, line 2), "transferring" (claim 1, lines 3 and 5), "as said first coupling part is adapted to take one of" (claim 1, lines 6-7), "expanded" (claim 1, line 7), "wherein said second coupling part

includes.....to said second coupling part" (claim 1, lines 28-32), etc. This is a new matter rejection.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new grounds of rejection.
